Imaging Services

CR, DR, X-Ray Equipment, Service and Supplies

CT SLICKER COVERS CUSHIONS AND ACCESSORIES

Reduced Costs

Fewer repairs and easier cleanups lead to quicker turnaround times between patients for your department! This means your department can run more efficiently with less downtime.

Improved Clean Up

Imaging Services CT Slicker Products are made of flexible plastic material that is easy to clean and sanitize effectively. Our products are non-porous and will not absorb fluids.

Premium Quality

Only the highest quality materials are used in the manufacturing of our products so they can withstand high friction from patient transfers and repeated use without ripping or tearing.
